

Spartan BV

Description

Spartan BV is 14 mm, two-layer sandwich style polyurethane track system. Its base layer consists of a black mat of SBR rubber granules bound in polyurethane. The second layer is a seal coat using two-component polyurethane and EPDM Powdered Rubber. The surface layer is made up of colored EPDM rubber granules cast into a polyurethane flood coat.

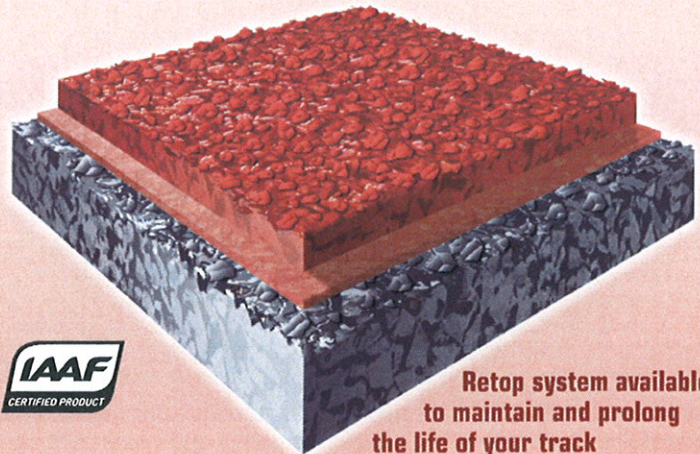

Layers

- Avg 10 mm SBR and binder basemat
- One thin seal layer consisting of Qualipur 5050 and EPDM powdered rubber
- Avg 4 mm Qualipur 5050 flooded with EPDM rubber

Highlights

- IAAF approved system
- Impermeable, two-component paved in place sandwich style track system
- Provides a high energy return
- Excellent all weather performance and spike resistance
- Free of mercury and lead
- World class performance for training and competition
- Premium colors available upon request
